

IP PHONE REBRANDING

Rebranding Our Technology is Easier Than Ever!

Your logo *clearly* displayed on both the phone and the screen.

Low Minimum Order Quantity

We don't require customers to order large quantities in order to take advantage of our service.

Low One-Time Setup Cost

Your logo is applied to the bezel. Once we have your logo set up, you can order 5 or 500.

Maintain a High Margin

Branding your phones can allow you to reduce price competition, keeping your prices where you set them.

In the highly competitive market of telecommunications, ClearlyIP offers one more way to stand out against your competition. Brand the phones with your company's logo or offer your customers the option of having their company name on every phone.

Easy 3 Step Setup Process

Step 1

Your account manager will send you a link to submit your logo and information.

Step 2

We'll provide a proof within 7 business days for your approval.

Step 3

Once approved, we'll get samples for quality assurance and you'll receive pictures.

What Model Do You Want Your Brand On?

Rebranding is available for all of our models.

CIP270

The CIP270 is the most robust of our CIP phones, supporting up to 16 SIP accounts. Perfect for an executive office or a reception desk.

- ⚙️ 36 Programable Digital Keys
- ⚙️ 4.3 Inch Color LCD
- ⚙️ Built-in Bluetooth
- ⚙️ Built-in Wifi

CIP250

The CIP250 is the perfect general office phone, supporting up to 8 SIP accounts. This our most popular phone for general office use.

- ⚙️ 28 Programable Digital Keys
- ⚙️ 2.8 inch Color LCD
- ⚙️ 1 USB Port

CIP230

The CIP230 is our most economical model, supporting up to 4 SIP accounts. This phone offers a reduced footprint for smaller work areas.

- ⚙️ 12 Digital Soft Keys
- ⚙️ 2.8 Inch Color LCD
- ⚙️ Supports Clearly IP Phone Apps for FreePBX® based systems

CIP200

This expansion module is made to work with the CIP270. The CIP200 offers an additional 2 pages of 20 programmable hard keys, making it a must-have on a reception desk.

- ⚙️ Keys programmed directly from the EndPoint Manager (EPM) module
- ⚙️ Add up to 6 expansion modules for up to 240 programmable keys
