Now Your Office is Clearly Anywhere

Your Extension, Everywhere You Need It to Be

Limitless Communications Anywhere in the World

The workforce today is often not tied to a single location. With the surge in work-at-home employees, telecom systems have had to adjust quickly. There are people working for global companies from their home, a hotel, or even their favorite coffee shop. When the possibilities for location are limitless, the communications solution needs to match.

Clearly Anywhere is a feature-rich mobile and desktop softphone designed for busy professionals. Enjoy limitless communications with ease of use to make & receive telephone calls over the internet on your computer or smartphone. Clearly Anywhere can be installed on a laptop, tablet or smartphone which allows you to leverage the same powerful performance and connection your desktop work phone has... anywhere and everywhere.

Benefit from the advantages of using Clearly Anywhere with access to all of your phone system VoIP features, with an easy-to-use interface that works with *ClearlyIP Platforms or FreePBX® based systems.

Never miss another phone call. Using a softphone gives users the much-needed flexibility they need along with a host of options when it comes to features and functionality. From the intuitive interface to the many built-in caller settings, users can customize Clearly Anywhere to fit their personal business needs.

Clearly Anywhere

Available for Both Desktop and Mobile Devices

Have the freedom to work your way. A major benefit of using the Clearly Anywhere softphone is being able to take it anywhere. Install the application on a computer and add it to any cell phone. You never have to worry about the cost of moving and reinstalling equipment, it's a simple software application download, and you're in business!

Clearly Anywhere Mobile is an easy to provision mobile softphone bringing your voice, text, and picture messaging to ClearlyIP Platforms or FreePBX® based systems! With its simple integration to your supported platforms, your system administrator can configure and deploy a feature-rich softphone client to their end-users on both Android and iOS devices

Offices don't need physical desk phones since Clearly Anywhere Desktop is fully featured and compatible with popular headsets.

The Clearly Anywhere desktop application can be accessed from anywhere globally, users can initiate calls from their desktop, and settings can be changed at the click of a button. Your employees never have to worry about missing a customer call again.

Clearly Anywhere Desktop softphone is available only on FreePBX® and Business Connect platforms.

Easy to Provision Mobile Softphone

Bringing Voice, Text and Picture Messaging

With an affordable price point and a considerable return on investment, it truly turns your VoIP system into a comprehensive Unified Communications platform.

The 'Clearly Anywhere' application available for Android and iOS devices allows system administrators to quickly set up, configure and deploy feature-rich softphone clients tightly integrated with ClearlyIP Platforms or as a paid add-on module for the Open-Source FreePBX® platform.

Enable your users to "Work From Anywhere" by downloading the Clearly Anywhere Mobile app. With QR Code provisioning, getting started is quick and easy on mobile devices.

Your office in your pocket.

Regardless if a salesperson is on the road, an executive is working from another office, or someone is working from home. Your office phone is anywhere you need it to be.

It's not necessary to forward calls. Your extensions inbound calls will ring on your mobile device, the same way they do on your desktop phone. The PBX handles everything.

Easy Setup and Provisioning.

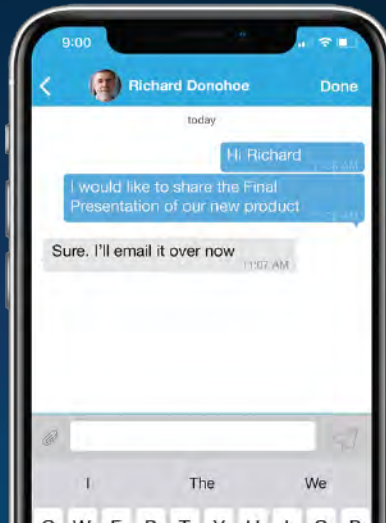

Clearly Anywhere is provisioned within ClearlyIP Platforms or FreePBX® Administrative interface. Once enabled, end users can follow simple instructions to install the application via the Android Play Store or iOS app store. Then automatically configure using a QR code or simple username and password, making it an affordable, easy-to-provision mobile softphone for your workers on-the-go!

Included Mobile Features

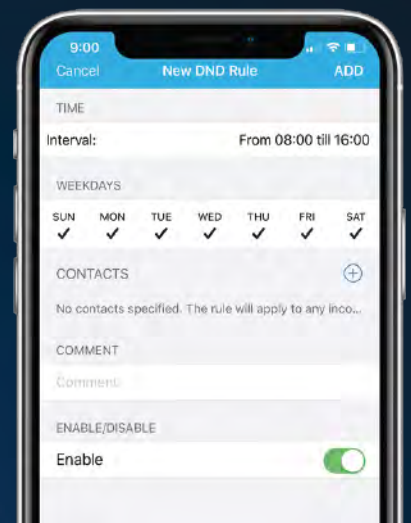

Company Voicemail Goes Mobile

The voicemail of your company is now with you. Clearly Anywhere offers a visual display and easy access to voicemail.

Uncomplicated Business Line SMS/MMS

Text with other employees and customers using your business phone number. Multiple users can share, send and receive messages on the same business number. Push integrations, ensure you don't miss a call or SMS message while at the same time conserving device battery life.

Private Time and Do Not Disturb Options

Not everyone wants their business phone to ring in the middle of the night. For that reason, Clearly Anywhere offers a granular do-not-disturb schedule that any user can set based on their preferences and work.

Call. Record. Transfer. Conference.

FreePBX® users can send and receive calls from their office extensions and seamlessly switch from mobile to Wi-Fi connectivity. Clearly Anywhere allows users to record and transfer calls and even create conference calls on demand.

QuickDial with BLF (Busy Lamp Fields) (Busy Lamp Fields)

Just like your favorites on your cell phone. You can create quick dials to be able to call your contacts easily. Quick dial can also be enabled with a BLF (Busy Lamp Fields) status to show the current status from your PBX of each Quickdial contact you have enabled.

Call History

Under the History section, you can choose "All," "Missed," or "Recorded" calls. We also flag calls that have been "answered on another device." Calls are also shown in the native OS call history.

Clearly Anywhere Desktop softphone is supported only on FreePBX® and Business Connect platforms.

Clearly Anywhere

A Powerful Desktop Softphone Transforming Employees Working From Home

If you have employees working from home, a desktop softphone can be a life-saver. Your employees never have to worry about missing an important customer call again.

Answer and make calls as if sitting in the office but from the comfort of your home office. Having one platform across all of your employees not only makes it easier for them to communicate with each other, but it simplifies how they connect with clients.

A NEW WORLD OF COMMUNICATION

You can manage customer calls, schedule conference calls, send instant messages to each other during important calls, and more with Clearly Anywhere Desktop. You are truly opening up a whole new world of communication for your work-from-home personnel.

NO HARDWARE REQUIRED

Desktop softphones come with serious savings. Clearly Anywhere, desktop softphone requires no hardware as it simply gets downloaded onto your users existing computer or tablet. Offering immediate return-on-investment by turning your workstation into a seamless collaboration tool.

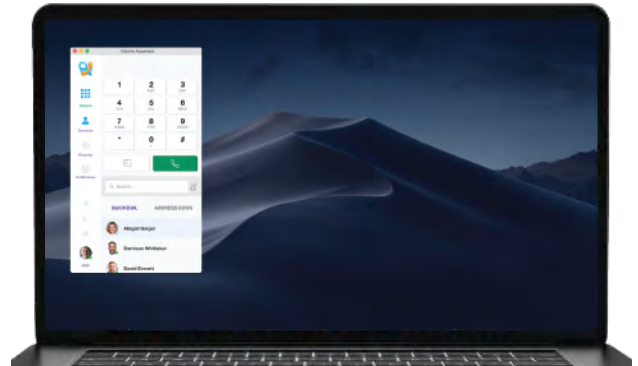

Top 5 Features

That Make Clearly Anywhere the Perfect Tool for Those That Have to be Out of the Office Often

QUICK AND EASY SET-UP

The Clearly Anywhere Desktop application allows clients to quickly set up their applications by logging in with their FreePBX® User Manager username and password.

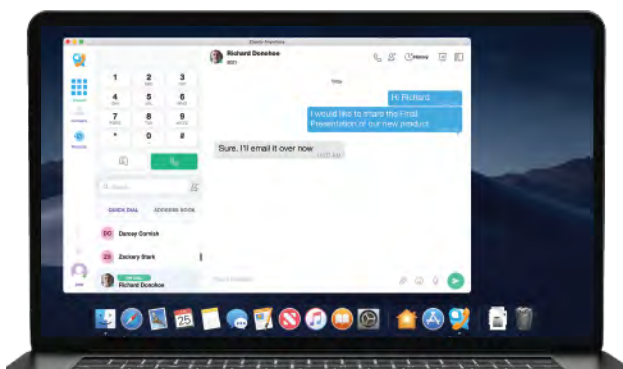

CONTACTS, FAVORITES & HISTORY

Like your favorites on your cell phone, you can create quick dials to call your contacts easily. You can also designate favorites for quick dials and see a list of past callers.

NO DEVICE LIMIT

There is no per-device fee or limit on the number of devices for the user. Each user on the PBX can setup Clearly Anywhere on one or more devices and pay the same yearly user fee regardless of the number of installed devices.

SMS & MMS MESSAGING

With Clearly Anywhere, you can send and receive messages for any provider with SMS and MMS support into the FreePBX® messaging subsystem, which includes Clearly IP SIP Trunks.

DND (DO NOT DISTURB)

Ability to toggle DND on and off on each device. The DND is specific to the device and will not put your desk phone in DND. You also have the ability to set DND schedules.
